(this report)

45-54 median age of respondents
from Esowista/Ty-Histanis

303 total number of survey respondents across all west coast communities
(see the full regional report)

About this report

This survey is one of the tools the Division of Family Practice uses to learn about health care needs and experiences of residents on the west coast of Vancouver Island. This 'Community Profile' reflects responses from Esowista and Ty-Histanis only. For more info, or the full regional report for all west coast communities, contact Abbie MacPherson amacpherson@divisions.bc.ca
